Help the Ascension by learning to
traverse the higher frequencies and
personally communicate with God

A Workshop with Guy Steven Needler

Author of "The History of God" and "Beyond The Source"
Ozark Mountain Publishing,

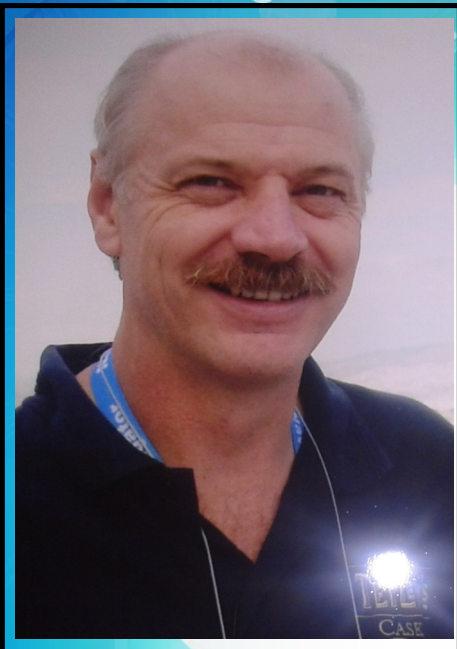

Overview Of Course Content:

- A 30-40 minute lecture where Guy will talk about his own interest in metaphysics and his subsequent awakening, channelled information on the spiritual beings contacted, who and what God is, the structure of Gods universe, and humankind's role within it. A questions and answers session will follow on.
- A series of guided personal and paired exercises relative to the methodology used to raise the participants frequencies above those of the human aura, up to, and beyond those, of the "currently undetected content of" the physical universe.
- The relationship of the Chakras and Auric layers relative to the frequencies the human body occupies in the energetic universe.
- Group discussion of personal experiences, plus physical responses encountered during the course, giving experiential PROOF of ones ability to rise up the frequencies.
- Guided meditation exercises relative to the structure of God's Universe and how we can traverse it to communicate with other spiritual beings and God.

The course will start at 09.30am with lunch from 1.30pm to 2.30pm, finishing no later than 6.30pm on both days.

A subsequent advanced (Level 3) workshop will be scheduled at a later date and will focus on prolonged, and robust use of, these and other methods of traversing the frequencies, including creating a permanent communicative link with God.
